war state and society in mid eighteenth century britain and ireland State legitimacy is a key aspect of state-society relations. State repression and violence, which occurs in many conflict-affected contexts, results in negative experiences of citizens with the state, a legacy of mistrust, and rejection of the legitimacy of state institutions.

war state and society in mid eighteenth century britain and ireland The work was necessary. Most of this work goes against the very ideals we cherish in our society, exemplified by phrases such as "life is valuable", "violence is bad", and so on. To conduct the work of war requires the dehumanization of your adversary and immunity to emotional responses.

### **3% Savings Bonds - War, State and Society**

war state and society in mid eighteenth century britain and ireland The root myth that enables the State to wax fat off war is the canard that war is a defense by the State of its subjects. The facts, of course, are precisely the reverse. For if war is the health of the State, it is also its greatest danger. A State can only "die" by defeat in war or by revolution.

### **War, Peace, and the State | Mises Institute**

war state and society in mid eighteenth century britain and ireland WAR IS A MAJOR AGENT OF CHANGE and a neglected one. Though war has been studied in a variety of contexts, its role as an independent variable has been curiously ignored.

Historians, for example, generally focus on the origins of war or on the diplomacy of wartime and the immediate postwar period.
