war through the eyes of a child Military Orientalism is a study of Western views of warfare as conducted by Eastern peoples and military institutions and Western fascination with (and often repulsion by) the seemingly bizarre and exotic military methods of "others." Patrick Porter challenges the current popular view that culture underpins war in the postmodern age. To achieve a more nuanced understanding of the impact of ...

war through the eyes of a child seeks to contribute to understanding about the war's impact on women as seen through the eyes of women themselves. Here women write and talk about the war, their experiences, and the difficult choices, changes and even opportunities the war has brought. In the process they describe the position of women in Somali society, both before and ...

war through the eyes of a child War affected the north west of Somalia from the early 1980s. The armed struggle against the Siad Barre regime ended in 1991 when the dictator was forced from power and the Somali state collapsed. As civil war expanded in the south, in May 1991 the SNM called a conference of clans in the north west.
